

Connector with backdraft damper and wall plate for round ducts

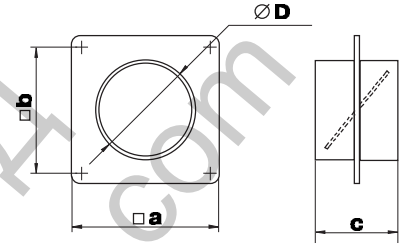

Application

- Supply and exhaust ventilation of various premises.
- Connection of same diameter air ducts.
- Decoration of mounting openings.

Design

- Made of white plastic.
- Equipped with a wall plate for decoration of mounting openings.
- Equipped with a backdraft damper for back flow prevention.
- Screw fixing to wall.
- Connecting diameters: 100, 125, 150, 200 mm.

Code	Dimensions [mm]			
	a	b	c	D
1511	150	134	62	100
2521	170	154	62	125
3531	204	188	62	150
4541	284	268	62	200

Connector with plate for round ducts

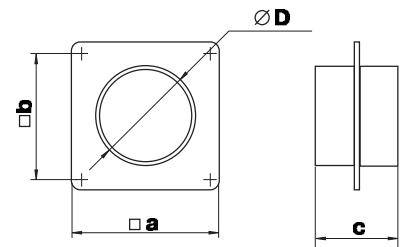

Application

- Supply and exhaust ventilation of various premises.
- Connection of same diameter air ducts.
- Decoration of mounting openings.
