

Hexagonal sander set

DRONCO 1-2-3 System

Ergonomic manual sanding system for wood, metal, plastics, varnished surfaces and many more.

With its ergonomic shape, the Hexagon Sander is the perfect tool for all sanding projects. It enables an especially easy- to- handle, smooth and effective sanding of larger surfaces that also reaches into corners, areas which are hard to access or on longer edges. The ideal tool for the restoration of furniture and for various sanding works for example on wood, fibreglass, plasterboard, metal or varnished surfaces.

The DRONCO 1-2-3 Hexagon Sander set contains six abrasive sheets in three different grits. The abrasive sheets can be used on both wood and on metal.

The DRONCO 1-2-3 Hexagon Sander set is also available with 50 abrasive sheets, assorted in three different grits (20 x K80, 20 x K120, 10 x K220)
