

Фрезер СМТ за дърво профилен прав, без лагер, с видиева пластина ф 30x20/70 мм, ф 8 мм, 174 HW

These industrial straight bits are made a kind of stainless steel specifically created to support hard work on route machines and CNC routers. The cutting plunging edge will allows you to execute any kind of drilling and trimming jobs on soft and hardwood, wood composites and also plastic and laminated materials.

Application

Used for drilling, grooving or jointing solid wood and wood composites. Can be used on machining centres, CNC routers and hand-held routers equipped with chucks or adaptors.

Tungsten carbide

Tipped

Solid tungsten carbide

Two cutting edges

Right-hand rotation

Tool with plunging
