

RB 320 X

Strong aluminium oxide abrasive cloth

Product Benefits

- Resistant bonding allows sanding hard materials and means a long tool life
- Stable X-cloth with good edge stability for increased safety at work
- Better surface pattern when using fine grit sizes
- Universally applicable

Applications

- Flat sanding of solid wood and veneered boards
- Rough and fine sanding of plywood
- Rough, intermediate and fine sanding of parquet floors

Product Structure

Type	32020
Grain	Aluminium oxide
Bonding	Resin
Backing	X-cloth
Coating	semi-open
Grit range	P 16, P 24 - P 320

Forms of Delivery

Rolls

Abrasive belts
