

CERTIFICATE

DQS GmbH

Deutsche Gesellschaft zur Zertifizierung von Managementsystemen

hereby certifies that the company

STEINEL GmbH

Dieselstraße 80 - 84
33442 Herzebrock-Clarholz
Germany

has implemented and maintains a **Quality Management System**.

Scope:

Development, production and distribution of thermotools, sensor light fixtures, sensors, measurement instrumentation, and electronic devices

Through an audit, documented in a report, it was verified that the management system fulfills the requirements of the following standard:

ISO 9001 : 2008

Certificate registration no. 004124 QM08

Date of certification 2009-10-27

Valid until 2012-10-26

REACH Regulation Statement

STEINEL is known to be a manufacturer of finished products in the "downstream-user" sense of REACH. As a downstream user, STEINEL is not legally obligated to register itself under the REACH regulation.

The products that you obtain from us are finished products in the downstream-user sense of REACH and therefore do not require legal registration. Those products which might contain such chemical substances will have to solely be registered by our suppliers.

In order to benefit our own interest and for the best secure warranty of our products, we pursue with great intensity the REACH implementations and their demands. Since we use, within limits, some chemical substances and formulas in our production process, we have already made contact in particular with our suppliers from whom we receive these products in question.

Our case essentially reflects a question of broad diffused practices which are executed in tons throughout many branches. Due to this fact, we have been advised by many suppliers that a pre-registration / later registration of these substances in question will have to be carried out.

If you have any more questions regarding the application of the REACH regulation in our company, please do not hesitate to contact us.

STEINEL Vertrieb GmbH

ppa. Jürgen Toppe
REACH-Coordinator
