Whether sanitation or central heating technician, electrician, interior and exterior builder, carpenter, kitchen fitter or professional DIY expert – UNICut sets new standards in the fields of performance, application and safety! UNICut can be used in rotary hammer drills with the SDS-plus chuck system and all 3-jaw-chuck drills.

UNICut Universal Hole Saws are designed for use in a wide range of materials:

- masonry such as aerated concrete, bricks etc.
- light-weight building materials such as plaster board, Fermacell etc.
- plastic and plastic coated wood
- hard woods, chipboard, plywood etc.
