

Планка Estebro® за плъзгачи се врати, за долно водене, с две ролки 155x70x65 мм, 11-89 мм

Simple adjustable plate

Family: Nylon rollers

Material: Roller of injected nylon, AISI 304L stainless steel, axle of AISI 303 stainless steel

Description: Plate with 2 nylon rollers which is used as a guide for the upper part of the sliding doors to avoid the oscillation during the opening and closing movements. It is installed by welding the plate to an anchoring placed in the upper part, in transversal direction to the door's movement, to allow adjustments in width.
