

DeWalt DCV586MN-XJ 54V FlexVolt XR Li-ion Cordless T-Stak M-Class Dust Extractor Vacuum - Skin Only

The Dewalt DCV586MN-XJ FlexVolt M-Class Dust Extractor has a fully Brushless 2000W motor for long life and powerful performance. It has been designed for dust extraction when working on a variety of materials including wood, concrete or masonry such as wall chasing, diamond drilling or sanding. It features an automatic double filter which cleans itself every 30 seconds. This prevents blockages in the HEPA filter and provides constant airflow. It is dust-proof and water-resistant for maximum protection against harsh conditions, resulting in longer life. This extremely versatile dust extractor can be used for both wet and dry extractions. It also features a wireless tool control with remote which allows the user to activate the extractor from the tool at a distance.

Includes:

- 1 x Remote control
- 1 x Extraction Hose (2.5m x 32mm)
- 1 x AirLock Adaptor
- 1 x Key Fob
- 1 x Strap
- 1 x HEPA Filter

Features:

- Alarm signals when there is a reduction in performance
- M-class Compliant, less than 0.1% dust escapes through the filter and makes the vacuum cleaner suitable for use on the construction site
- TSTAK Compatible for ease of use and enhanced mobility
- Heavy duty metal clips for quick and easy access to tank & filters
- 4mm reinforced Polypropylene housing for increased durability

Specifications:

- Voltage: 54V
- Max capacity:
 - Wet: 7.8L
 - Dry: 11L
- Max air volume: 24.7L/sec
- Degree of protection: IPX4
- Hose diameter: 32mm
- Hose length: 2.5m
- Weight: 7.5kg
