

DW733

Thicknesser

- Head lock facility locks the cutter head into place to eliminate any movement in the cutter, providing a high quality surface finish
- Large infeed and outfeed tables provide added material support when cutting large materials to improve the surface finish
- 4 post column design allows the cutter head to move up and down smoothly and accurately

Features

- Head lock facility locks the cutter head into place to eliminate any movement in the cutter, providing a high quality surface finish
- Large infeed and outfeed tables provide added material support when cutting large materials to improve the surface finish
- 4 post column design allows the cutter head to move up and down smoothly and accurately
- Designed for portability on the job site and in small workshops
- Powerful 1800 Watt motor makes large surface planing easy
- Holes located in the base enable the machine to be fitted to work bench
- Thickness scale, material removal gauge and graduated depth crank make accurate planing quick and easy

Standard

- Dust shroud and adapter
- Allen key
- Blade spanner
- Blade changing guides

Specifications

Power Input

1800 Watts

Power Output	1000 Watts
No Load Speed	10000 rpm
Max. Capacity	317 mm
Max. Depth of Cut	
Max. Planing Depth	2 mm
Planer Table Size	
Thicknesser Table Size	
Max. Thicknesser Capacity	152 mm
Feed Rate	8 m/min
Hmotnost	33.6 kg
Depth	310 mm
Length	520 mm
Height	445 mm
