

fischer Expansion plug SX 6 x 30 RH with round hook

Art.-No. 90902

- Optimum force transmission due to four-way expansion. This allows for high holding values in solid and hollow building materials.
- Simple to assemble: The edge of the plug prevents it from falling deeper into the drill hole.
- No expansion pressure on the plug neck. This means that tiles or plaster are not damaged.
- With the appropriate round hook for a perfect hold.

Technical Data

Drill diameter	6	[mm]
Min. drill hole depth	40	[mm]
Anchor length	30	[mm]
Contents	4 x SX 6 x 30, 4 x round hook 4 x 65 white, nylon-coated	
Amount	4	[St.]
Packaging	Blister card	
GTIN (EAN-Code)	4006209909027
