

Wall plate for round ducts

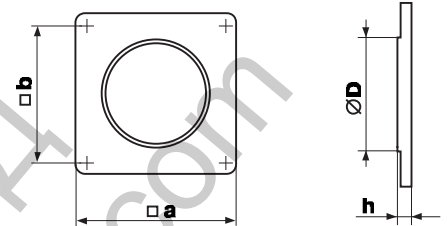

Application

- Supply and exhaust ventilation of various premises.
- Connection of air ducts to ventilation shafts.
- Decoration of mounting openings.

Design

- Made of white plastic.
- Screw fixing to wall.
- Connecting diameters: 100, 125, 150, 200 mm.

Code	Dimensions [mm]			
	D	h	a	b
15	103	3	150	134
25	128	3	170	154
35	151	3	204	188
45	204	3	284	268

Round duct connector

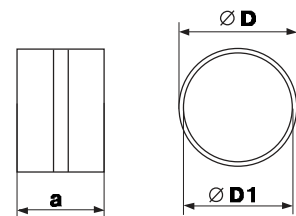

Application

- Supply and exhaust ventilation of various premises.
- Connection of same diameter air ducts.

Design

- Made of white plastic.
- Designed for direct installation into air duct and equipped with a lock ring.
- Connecting diameters: 100, 125, 150, 200 mm.

Code	Dimensions [mm]		
	D	D1	a
111	100	96	62
212	125	123	62
313	150	148	62
414	200	197	62

Connector with backdraft damper for round ducts

Application

- Supply and exhaust ventilation of various premises.
- Connection of same diameter air ducts.

Design

- Made of white plastic.
- Equipped with a backdraft damper for back flow prevention.
- Designed for direct installation into air duct and equipped with a lock ring.
- Connecting diameters: 100, 125, 150, 200 mm.

Code	Dimensions [mm]		
	D	D1	a
1111	100	96	62
2121	125	123	62
3131	150	148	62
4141	200	197	62
