

RUNNER PLUS

**Electronic Poker with converter built-in.
For continuous and heavy works.
Large scale constructions.**

Runner plus
38-42-52-58
(1,5 CV)

Runner plus 65-75
(2,2 CV)

Quick View:

- 1 On/off easily accessible switch
- 2 Aluminum housing with electronic device built-in 2HP (Ø 38, 42, 52, 58) see picture, 3HP (Ø 65, 75) see detail picture
- 3 Supply cord according EC regulation and special for the outdoors – 15m
- 4 Plug – 2Ph+E
- 5 Steel cap
- 6 Steel poker head
- 7 Rubber hose – 7 m

Description:

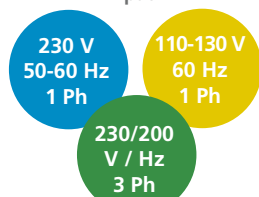

Poker and converter in one device.
Operates to single phase connection 230V/50-60Hz.
Continuous and heavy works.

Main Features:

Resistance aluminum box shockproof
Mobility & comfort easy to handle, converter and poker on a single equipment
Security protection device against tension fluctuation, current leakage, overload, phase loss, short circuit and overheating
Design ergonomic and resistant
Quality abrasion resistant materials
Easy repair incorporates a quick system to remove and replace the electronic components
