

Wall plate  
for round ducts

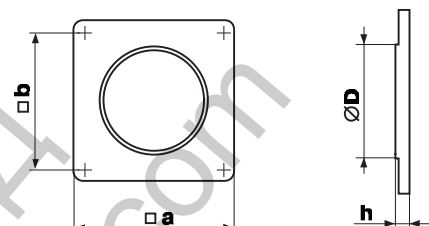

## Application

- Supply and exhaust ventilation of various premises.
- Connection of air ducts to ventilation shafts.
- Decoration of mounting openings.

## Design

- Made of white plastic.
- Screw fixing to wall.
- Connecting diameters: 100, 125, 150, 200 mm.

| Code | Dimensions [mm] |   |     |     |
|------|-----------------|---|-----|-----|
|      | D               | h | a   | b   |
| 15   | 103             | 3 | 150 | 134 |
| 25   | 128             | 3 | 170 | 154 |
| 35   | 151             | 3 | 204 | 188 |
| 45   | 204             | 3 | 284 | 268 |

Round  
duct connector

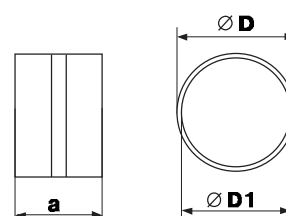

## Application

- Supply and exhaust ventilation of various premises.
- Connection of same diameter air ducts.

## Design

- Made of white plastic.
- Designed for direct installation into air duct and equipped with a lock ring.
- Connecting diameters: 100, 125, 150, 200 mm.

| Code | Dimensions [mm] |     |    |
|------|-----------------|-----|----|
|      | D               | D1  | a  |
| 111  | 100             | 96  | 62 |
| 212  | 125             | 123 | 62 |
| 313  | 150             | 148 | 62 |
| 414  | 200             | 197 | 62 |

Connector  
with backdraft damper  
for round ducts

## Application

- Supply and exhaust ventilation of various premises.
- Connection of same diameter air ducts.

## Design

- Made of white plastic.
- Equipped with a backdraft damper for back flow prevention.
- Designed for direct installation into air duct and equipped with a lock ring.
- Connecting diameters: 100, 125, 150, 200 mm.

| Code | Dimensions [mm] |     |    |
|------|-----------------|-----|----|
|      | D               | D1  | a  |
| 1111 | 100             | 96  | 62 |
| 2121 | 125             | 123 | 62 |
| 3131 | 150             | 148 | 62 |
| 4141 | 200             | 197 | 62 |
