

## Round flexible duct connector

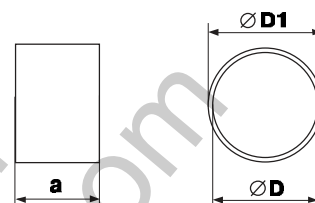

### Application

- Supply and exhaust ventilation of various premises.
- Connection of flexible round ducts.

### Design

- Made of white PVC.
- Cover the connector with air duct and fix it with clamps.
- Connecting diameters: 100, 125, 150, 200 mm.

| Code | Dimensions [mm] |     |     |
|------|-----------------|-----|-----|
|      | a               | D   | D1  |
| 1113 | 60              | 100 | 103 |
| 2123 | 60              | 125 | 128 |
| 3133 | 60              | 150 | 153 |
| 4143 | 60              | 200 | 204 |

## 90° bend for round ducts

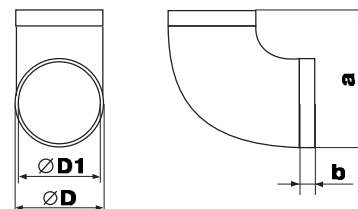

### Application

- Supply and exhaust ventilation of various premises.
- Connection of same diameter air ducts at 90°.

### Design

- Made of white plastic.
- Connecting diameters: 100, 125, 150 mm.

| Code | Dimensions [mm] |     |     |    |
|------|-----------------|-----|-----|----|
|      | D               | D1  | a   | b  |
| 121  | 100             | 97  | 137 | 30 |
| 222  | 125             | 122 | 164 | 30 |
| 323  | 150             | 147 | 189 | 30 |

## T-joint for round ducts

### Application

- Formation of branch connections in supply or exhaust ventilation systems located in residential, public and other buildings.
- Connection of same diameter round ducts and integration into complex ventilation systems.

### Design

- Made of white plastic.
- Connection of same diameter three round ducts at 90°.
- Connecting diameters: 100, 125, 150 mm.

| Code | Dimensions [mm] |     |     |    |     |
|------|-----------------|-----|-----|----|-----|
|      | D               | D1  | a   | b  | c   |
| 131  | 100             | 97  | 173 | 30 | 139 |
| 232  | 125             | 122 | 198 | 30 | 164 |
| 333  | 150             | 147 | 223 | 30 | 189 |
