

Зарядно устройство Деса за акумулатор инверторно 12 V, 0.8 A, SM 1208

Code: 300600 with quick connector, clamps + eyelet for bike battery

Automatic battery chargers with program for charge conservation (pulse recharge).

Suitable for charging lead batteries: WET serviceable and maintenance free, AGM, GEL, Start & Stop. Multi step charging: the batteries are charged by applying sophisticated multi-step programs.

High efficiency: "I-U" Charging characteristic (constant current - constant voltage) minimises battery charging time.

Maintenance Function "Pulse Maintenance": can remain connected to the battery for a long time. Keeps the battery ready for use through the pulse charge.

Safety guaranteed: designed to protect vehicle electronics. Non-sparking. Reverse polarity protected and short-circuit proof.

Protection degree: IP65

Lightweight and compact battery charger.

Built for outdoor use.

3 Steps charging program. First phase: constant current; Second phase: constant voltage; Third phase: pulsed maintenance.
