

## VENTS M series

| Parameter                    | Value   | Unit  |
|------------------------------|---------|-------|
| Voltage                      | 230     | V     |
| Frequency                    | 50      | Hz    |
| Power consumption            | 5.5     | W     |
|                              | 0,006   | kW    |
| Maximum air flow             | 78      | m³/h  |
|                              | 45,942  | CFM   |
|                              | 21,684  | l/s   |
|                              | 0,02168 | m³/s  |
|                              | 1302,6  | l/m   |
| Current                      | 0.035   | A     |
| Noise level at 3 m           | 26      | dBA   |
| Weight                       | 0.48    | kg    |
| Index of protection          | IP 34   | class |
| Dimention of connection pipe | 100     | mm    |
