DrainInspector HD30

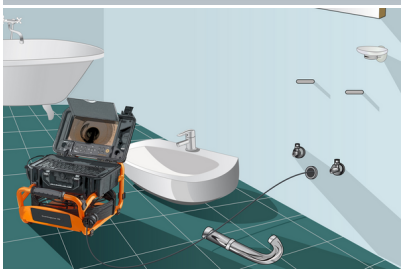

Professional pipe inspection system with high-resolution camera, 30-metre PushFlex cable and large colour display

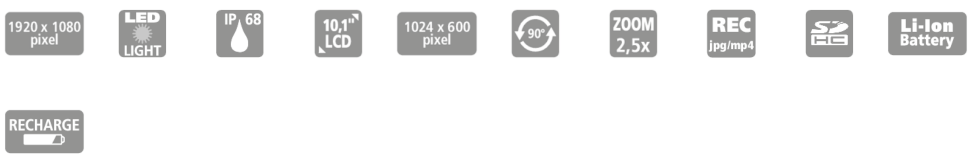

This professional pipe inspection system is suitable for pipe diameters from DN 50 in plumbing, leak detection and building services. The 30-metre PushFlex cable, covers all domestic applications. The glass fibre-reinforced push cable offers the optimal combination of rigidity for insertion and flexibility for branched pipe systems. The high-resolution camera enables detailed image and video recording, and the clear digital zoom allows details to be captured with precision. 15 powerful LEDs ensure perfect illumination, and AutoLevelView automatically aligns the image horizontally. Two skid adapters (80/46 mm) make it easier to pass through connections, while the centring skid adapter (100 mm) centres the camera for optimal alignment and all-round visibility. The device also features a text comment function via keyboard and an audio recording function, enabling video commentary during recording. Image, video and audio recordings can be saved on the SD memory card for documentation purposes.

TECHNICAL DATA	
Diameter Camera Head	23 mm
Camera Resolution	1920 x 1080 pixels
Field of View (FOV)	130°
Depth of Focus (DOF)	6 … 26 cm
Screen Type	10,1" TFT display
Display Resolution	1024 x 600 pixels
Length of Probe	30 m
Illumination	4 brightness levels
Digital Zoom	2.5x digital zoom in 3 stages
Memory	SD card: Class 10 up to 64 GB
Power Supply	Power supply: 12 / DC / 1.5 A Li-ion battery pack: 7.2 V / 6.4 Ah / 46.08 Wh
Features	automatic horizontal image alignment
Dimensions (W x H x D)	390 mm x 300 mm x 480 mm
Weight	10.6 kg (incl. battery pack)

SCOPE OF DELIVERY

Item No. 084.230A **GTIN (EAN)** 4021563740956 **SU** 1
