

Screeding Levels With Vials SLXG 2

TECHNICAL DATA

Aluminium box profile with centre bar

Profile weight approx. 700 g/m

Dimensions approx. 100 x 18 mm

1 horizontal vial

1 plumb vial

2 plastic hand holes

Lengths:

200 cm - 300 cm

Technology

Unbreakable acrylic block vials

Quality features

max. Measuring tolerance in
standard position: 1,0/lin.m
Profile weight (0,057°)

approx. 700 g/lin.m profile
weight

Product features

Increased robustness due to reinforced centre bar

Target group

Carpenters, civil engineers

uses
