

**TR MAGNET (Replaces current TR-S)**

[www.rubi.com](http://www.rubi.com)

## TR MAGNET (Replaces current TR-S)

Elements that DON'T changed compared to current TR-S:

- Aluminum injected base
- Floating bases
- Legs to hold large format tiles
- Pivotal square
- Case
- Cutting length: 60 and 71 cm
- Cutting height: 3 – 15 mm

Elements that CHANGE compared to the current TR-S:

- New guide supports. Reinforced.
- Guides: Ø 20mm (the guides of the TR-S are Ø 17mm)
- NEW breaking set. Power: 800 Kg (The TR-S has a power of 600 Kg).
- NEW lateral stop
- Fast blocking system of the square (TR-S uses a threaded knob).

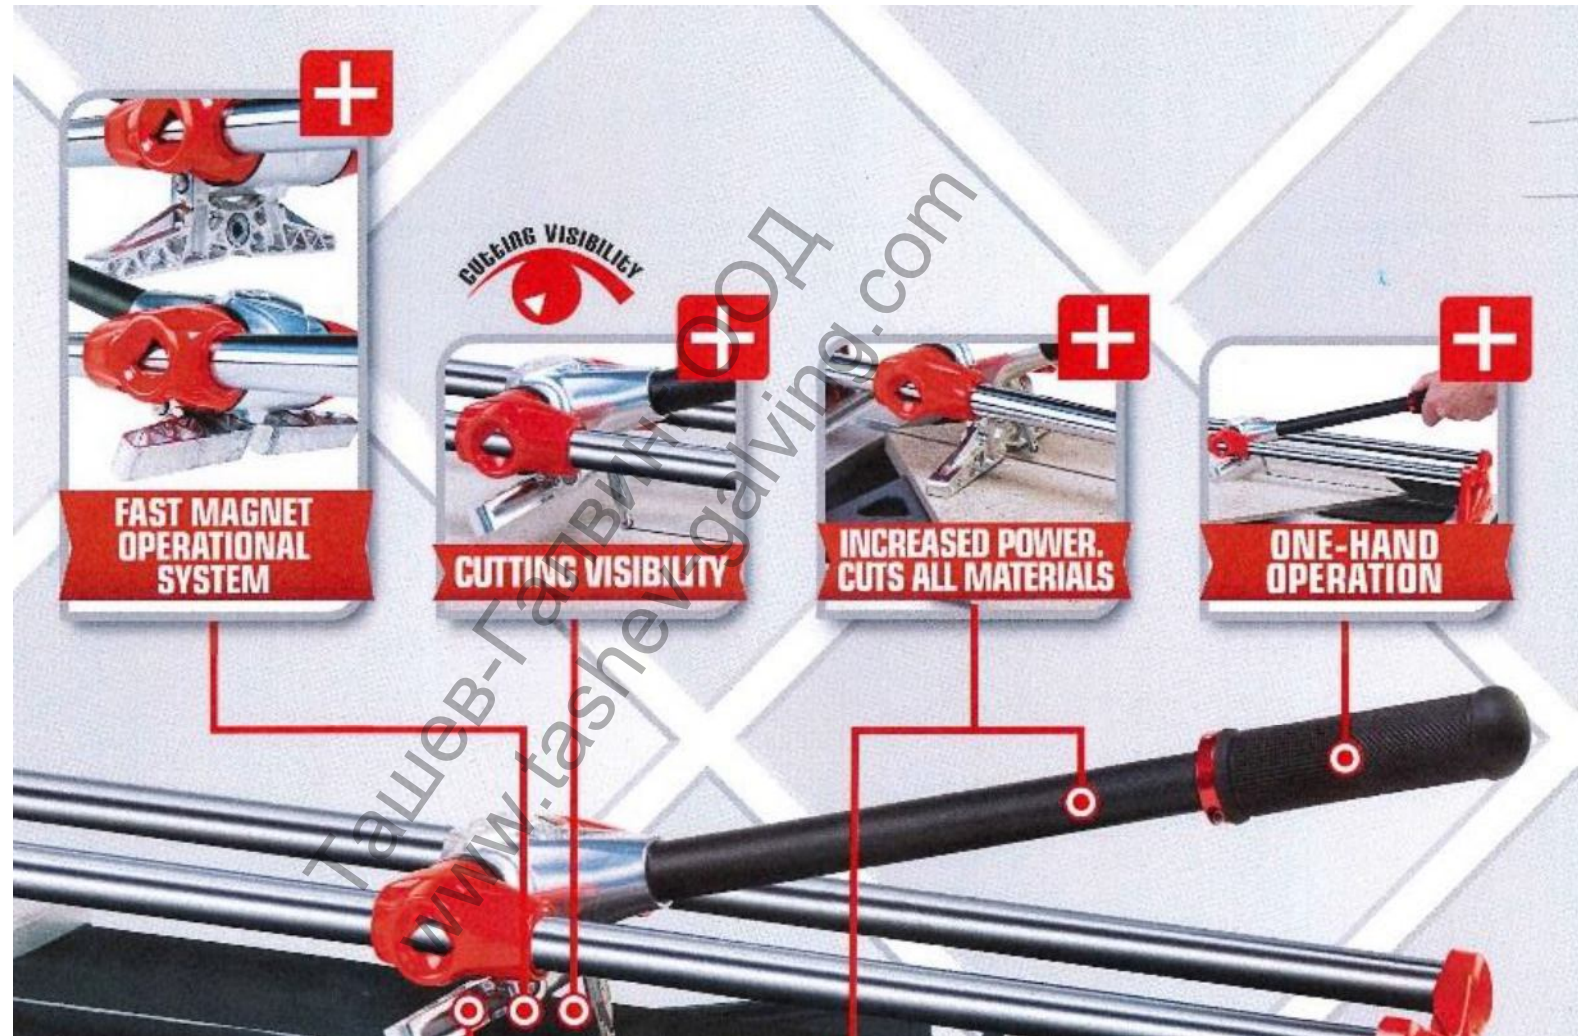

Availability: End of February 2017

# TR MAGNET - NEW BREAKING SYSTEM

## NEW BREAKING SYSTEM\*:

- Fast operational system for positioning scoring and breaking positions. Uses a Magnet. With only one hand.
- Reinforced handle and breaker → Greater power
- High visibility when scoring
- Soft-grip ergonomic handle
- 

\* Same breaking system as TR MAGNET
