

Laser Beam Detector

894-04 Red Laser Beam Detector

Features

- Bright, easy to see indicator lights
- Visible and audible indicator signs
- Automatic shutdown
- Detection range: up to 50 meters
- Precision:
 - High accuracy $\pm 1.5\text{mm}$
 - Low accuracy $\pm 2.5\text{mm}$
- Low voltage alarm
- Easy to operate
- Laminated 9V battery included

Fields of application

- For use with pulse enabled red beam laser tools for extended ranges
- For detecting red laser beams in bright light or difficult to discern situations

894-04G Green Laser Beam Detector

Features

- Bright, easy to see indicator lights
- Visible and audible indicator signs
- Automatic shutdown
- Detection range: up to 50 meters
- Precision:
 - High accuracy $\pm 1.5\text{mm}$
 - Low accuracy $\pm 2.5\text{mm}$
- Low voltage alarm
- Easy to operate
- Laminated 9V battery included

Fields of application

- For use with pulse enabled green beam laser tools for extended ranges
- For detecting green laser beams in bright light or difficult to discern situations
