

PRO Drill Stand

The robust solution for controlled, depth-restricted drilling – ideal for series work

- PRO drill stand for controlled and depth-restricted drilling with 130 mm throat depth and up to 80 mm stroke, **ideal for series work**
- **Euronorm mount** for mains-operated power drills with a collar diameter of 43 mm
- **easy fastening of the drill** with a metal tommy screw
- heavy, stable grey cast iron plate (307 x 203 mm) and robust 40 mm round column for a **secure stand**
- mounted rack and two integrated threaded screws for **precise, play-free adjustment and handling of the upper part**
- three-arm feed lever and return spring for easy and **ergonomic lowering and retracting of the drill**
- **depth stop with quick-release mechanism** and a finely graduated scale ring for millimetre-accurate adjustment of the drilling depth
- convenient and fast **adjustment** of height and depth stop **without needing tools**
- large working table (240 x 196 mm) with clamping grooves for easily **fastening clamping blocks or vices**
- **drill chuck guard** for protection against accidental contact with the rotating chuck
- **cable holder** ensures safe routing of the drill's power cord
