### Scope of delivery:

Pliers in the metal suitcase without pressing inserts

- Hydraulic two-hand crimping pliers in a plastic suitcase for crimping conductors of copper or aluminium with a sectional view of 10-185 mm<sup>2</sup>
- antifatigue operation through high pressure hydraulics to 50 Nm
- long lifetime, small technical wear
- shorter crimping times through presetting the length of stroke
- universal application by head which is rotatable by 180°
- Pressing connection through pressure relief valve just to DIN, avoidance of overload
- problem-free change of the pressing inserts through hinged head
- good handling, low weight
