36016/1	60x16	Blanco, Branco, White, Blanc	2	1,01	300
36016/2	60x16	Negro, Black, Noir	2	1,01	300

Family: Wheels for aluminium

Material: Wheel of 11SMn30 steel, box of aluminium

Finish: Wheel in zinc-plated degree 3, lacqued box

Maximum weight supported*: 300 kg

Description: Wheel with box and bearing 6201 2RS. It is used in aluminum sliding doors to allow their displacement over the guide. Its installation consists in fixing the box to the door's base with a plate and two M6 screws. Better resistance to the corrosion, screws with anticorrosion treatment (Geomet) for a good compatibility with aluminum. For profiles with height from 50 to 60 mm.

***In perfect conditions of installation, usage and maintenance.**
