

## Cast iron solid wheels, swivel top plate bracket type NL

### Wheel description

Cast iron solid wheel.

### Plain bearing bore or ball bearing bore

The plain bearing bore results from a hole in the material forming the centre of the wheel and contains the axle.

In the ball bearing bore, the housing is obtained by moulding and turning and contains ball bearings series Z.

### Axle

Axle composed of ground steel bush with bolt according to UNI EN 24017 and nut according to UNI EN 24032.

### Swivel top plate bracket type NL

Swivel top plate bracket type NL. The plate, the ball race ring and the fork are made of pressed steel zinc plated finish; swivel actions: double ball greased race with dust protection seal made of polyethilene. The king pin is integral with top plate and duly rivetted.
