Hitachi
2 YEAR
PETROL TOOL
WARRANTY

Terms & conditions apply

2015

2 Hitachi YEAR PETROL TOOL WARRANTY*

Terms & conditions apply. Online registration required

Now more than ever, you need tools you can rely on.

Hitachi Power Tools offer an extended warranty on all outdoor power equipment when registered within 4 weeks of purchase.

Simply visit www.hitachi-powertools.co.uk/opewarranty.html and complete the registration form supplied.

What does the extended warranty cover?

We undertake to replace or repair any part found to be defective in material or workmanship, within 24 months (15 months for Hire Fleets) of delivery to the original purchaser.

What is not covered?

Defects arising from neglect, misuse or accident, except as provided by statute. Accessories and other consumable items are also excluded from this Guarantee.

How do I get my tool repaired?

Contact your nearest Hitachi authorised service agent. You can find this on our website or by calling us on 01908 660663. You will need to provide your proof of purchase and warranty registration number to the service agent.

I have purchased a cordless outdoor power tool. Is this covered under the warranty?

Li-Ion cordless tools are covered by a separate extended warranty. Please see www.hitachi-powertools.co.uk for details.

HITACHI KOKI'S GROWTH STRATEGY

The Hitachi Koki Group is aiming for a major expansion of its outdoor power equipment so they can become the driving force behind future strategic growth. The Group will realize steady growth by using its advanced technical capabilities to focus on developing original new products not being produced by other companies, accelerating global development, and actively expanding sales in newly emerging markets where growth potential is high.

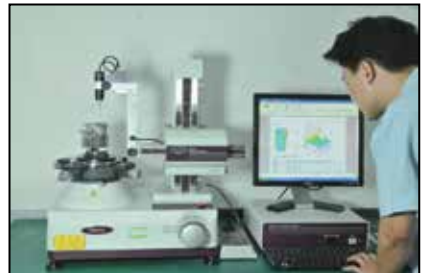

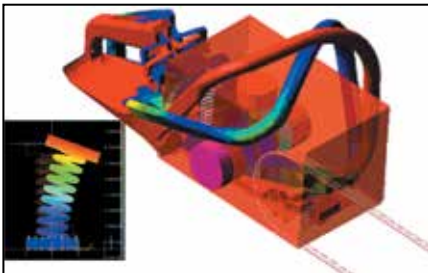

GROWTH OF OUTDOOR POWER EQUIPMENT

Outdoor power equipment, which has large markets and is comparatively unaffected by economic volatility, will undergo a force behind future strategic growth. The framework for bolstering production capacity in China is finally in place and the product lineup is being assembled. In the future, the Group will further strengthen its products so they are price competitive and conform with secondary exhaust emission regulations in Europe and the US, and aggressively expand its sales channels globally.

E-ALD (ENGINE-ANALYSIS LEADING DESIGN) AND QUALITY CONTROL

By using a leading-edge technology via computer analysis called E-ALD (Engine-Analysis Leading Design), the Group is developing outdoor power equipment designed to take maximum advantage of engine performance. It also has a stringent quality control program, and its products are without exception subject to rigid inspections and tests at each stage of processing. Parts are scrutinized for flaws by expert inspectors. Components are thoroughly tested at assembly lines to ensure optimum performance, and each finished product is carefully examined to assure Hitachi's standard quality.

PUREFIRE

Introducing a new generation of two-stroke engines

Hitachi's innovative 'PureFire' two-stroke engine produces ultra-low emissions without the need for special or additional internal moving parts. During the intake / compression stroke, the optimised scavenging system within the cylinder and crankcase walls, significantly increase the atomization of the fuel/air mixture which results in a much more efficient combustion process. Then, in the combustion/exhaust stroke, the exhaust exits through a small catalytic converter in the muffler where the remaining hydrocarbons turn into carbon dioxide.

PureFire Engine

The world first certified to the stringent California Air Resources Board (CARB) Tier 3 emission regulations.

Official Emission Regulations		Certification Levels	
	CARB Tier 3	24cc	40cc
HC + NOx	50	38	47
CO	805	235	224

HC+NOx : Hydrocarbon Plus Oxides of Nitrogen

CO: Carbon Monoxide

S-START SYSTEM

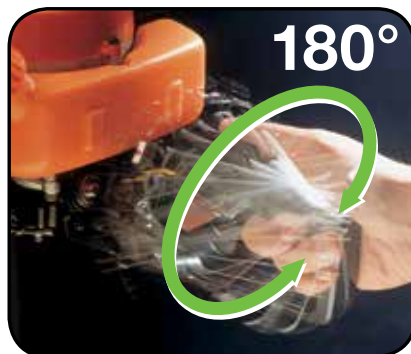

Up to 50% less pulling force required

S-start is ideal for those who like to have soft and smooth engine starting. It is suitable for professional users too, who can save time and energy from reduced effort.

QUICK TWIST HANDLE

Five position adjustable handle

A 180° Angle adjustable pivoting handle with 5 positions makes vertical cuts and shaping easier than ever. Suitable for left or right handed use.

LI-ION CORDLESS OUTDOOR POWER TOOLS

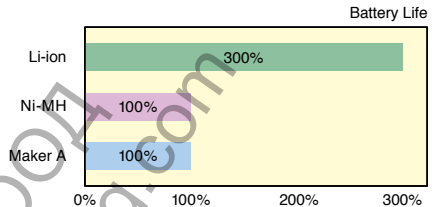

Light Weight

Hitachi Li-Ion batteries are 40% lighter than Ni-MH batteries, allowing longer use and greater control.

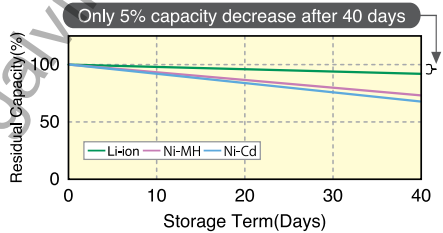

Long Service Life

Unique protection circuitry in Hitachi Li-Ion batteries prevents overload, overcharge and high discharge, giving them up to 300% longer service life than similar batteries.

Environmentally Friendly

Hitachi Li-Ion batteries contain no harmful Cadmium, making them better for the environment. Also, Hitachi Li-Ion batteries have an extremely low self-discharge rate. If a battery is not used, the battery charge will drop by only 5% in 40 days, meaning that less energy is needed to recharge it. Finally, Hitachi Li-Ion batteries have no memory effect, making it possible to top up the battery charge at any time.

Hitachi Li-Ion batteries hold their charge for longer, which means there is no discernible loss of performance throughout the battery charge.

The user should be aware that the machine may cut out when the battery needs recharging. This is not a battery fault; the new technology protects the battery cell, giving extended charging cycles when compared to previous battery technology.

When the battery is recharged, the machine will operate normally.

New Batteries

Electric discharge may be low from new batteries or batteries that have not been used for a long period of time. This is a temporary phenomenon; normal operation will be achieved after charging and discharging the batteries two or three times.

How to make your Hitachi Li-Ion batteries last longer...

Always recharge your batteries before they become completely exhausted.

When you feel the tool losing power, stop using the tool and recharge the battery. If you continue to use the battery until it is completely drained, this may damage it and shorten its life.

Avoid recharging at high temperatures.

A rechargeable battery will be hot immediately after use. If you recharge it while it is hot, the internal chemical composition can be damaged, shortening the battery life. Let the battery cool for a while before recharging.

CG22EAP2/WJ

Loop Handle Grasstrimmer/Brushcutter

- Lightweight and compact
- Loop front handle
- Stand keeps cutter upright to protect tank
- New PureFire engine meets European Stage 2 standards for low emissions

Displacement	21.1cc
Max Power	0.63kW (0.84hp)
Cutting Diameter	470mm
Fuel Tank Capacity	450cc
Diameter of Pipe	24mm
Dry Weight	3.9kg

Standard equipment:
Bump feed, box wrench, hex wrench, spanner, safety glasses

CG22EAP2/WA

Loop Handle Brushcutter

- Lightweight and compact
- Loop front handle
- Stand keeps cutter upright to protect tank
- Solid steel drive shaft
- S start: soft and smooth engine recoil starter
- New PureFire engine meets European Stage 2 standards for low emissions

Displacement	21.1cc
Max Power	0.63kW (0.84hp)
Cutting Diameter	460mm
Fuel Tank Capacity	450cc
Diameter of Pipe	24mm
Dry Weight	4.4kg

Standard equipment:
Blade, bump feed, harness, box wrench, hex wrench, spanner, safety glasses

Optional Parts

Attachments for straight shaft single handle Brushcutters.

Suitable for models CG22EAS(SLP), CG27EJ(SLP), CG24EKS(SL)

CG-HTB

Hedgetrimmer Attachment

Blade length 550mm

Weight 1.5kg

EAN: 4934528739011

CG-PSB

Pole Saw Attachment

Guide bar length 250mm

Weight 1.2kg

EAN: 4934528723003

CG-MCB

Mini Cultivator Attachment

Weight 2.3kg

EAN: 4934528331383

Note: these parts are covered by the standard 12 month warranty

CG24EA2/WN
Loop Handle Brushcutter

- Lightweight and compact
- Loop front handle
- Solid steel drive shaft
- S start: soft and smooth engine recoil starter

Displacement	23.9cc
Max Power	0.85kW (1.1hp)
Fuel Tank Capacity	520cc
Diameter of Pipe	24mm
Dimensions	1765 x 410 x 335mm
Dry Weight	4.6kg

Standard equipment:
Blade, harness, bump feed, box wrench, hex wrench, spanner, safety glasses

CG27EA2/WN
Loop Handle Brushcutter

- Loop front handle
- Solid steel drive shaft
- S start: soft and smooth engine recoil starter

Displacement	26.9cc
Max Power	0.9kW (1.2hp)
Fuel Tank Capacity	520cc
Diameter of Pipe	24mm
Dimensions	1765 x 410 x 335mm
Dry Weight	4.9kg

Standard equipment:
Blade, harness, bump feed, box wrench, hex wrench, spanner, safety glasses

SOLID STEEL DRIVE SHAFT

A solid steel drive shaft offers greater durability and long service life.

Note: Smart-Fit brushcutters are fitted with square section driveshafts.

Not fitted to bent shaft brushcutter CG22EAB(LP)

CG27EBDP/WA
Smart-Fit Loop Handle Brushcutter

- Loop front handle
- Nylon trimmer head as standard
- Accepts a range of attachments including hedgetrimmer, pole saw, edger and mini cultivator
- Easy to remove attachments allow for compact transporting
- New PureFire engine meets European standards for low emissions
- High durability engine with 2 piece piston ring
- Ignition control system
- Low vibration level
- Low noise
- Spindle lock system

Displacement	26.9cc
Max Power	0.9kW (1.2hp)
Fuel Tank Capacity	520cc
Diameter of Pipe	24mm
Dimensions	1782 x 320 x 253mm
Dry Weight	5.3kg

Standard equipment:
Bump feed, box wrench, hex wrench, safety glasses, harness

CG22EAP2/WE
Smart-Fit Loop Handle Brushcutter

- S start: soft and smooth engine recoil starter
- New PureFire engine meets European Stage 2 standards for low emissions
- Loop front handle
- Nylon trimmer head as standard
- Detachable front end allows use of optional attachments
- Solid steel square section drive shaft

Displacement	21.1cc
Max Power	0.63kW (0.84hp)
Fuel Tank Capacity	450cc
Diameter of Pipe	24mm
Dry Weight	4.7kg

Standard equipment:
Bump feed, box wrench, hex wrench, safety glasses, harness

Smart-fit attachments extend the capabilities of the CG27EBDP(SL) and CG22EAP2(SL), and are simple to detach and transport. All Smart-Fit attachments are fitted with a square section drive shaft.

CG-MC
Mini Cultivator Attachment
 For aerating and cultivating flower beds
 Length 869mm
 Weight 2.8kg
 EAN: 4934528331390
 Standard Equipment: Box wrench, wheel screw

CG-GT
Grass Trimmer Attachment
 Also accepts a blade (not supplied)
 Length 860mm
 Weight 1.7kg
 EAN: 4934528382323
 Standard Equipment: Bump feed head

CG-HT
Hedgetrimmer Attachment
 For long-reach hedge trimming
 Length 1426mm
 Weight 2.3kg
 EAN: 4934528739028
 Standard Equipment: Handle

CG-PE
Portable Edger Attachment
 For edging along paths and flower beds
 Length 835mm
 Weight 2.3kg
 EAN: 4934528373444
 Standard Equipment: Box wrench, wheel screw

CG-PS
Pole Saw Attachment
 For pruning trees and shrubs
 Length 1179mm
 Weight 1.7kg
 EAN: 4934528723010
 Standard Equipment: Box wrench

CG-EX
Extension Kit
 For use with the CG-PS only
 Length 900mm
 Weight 0.9kg

Nylon Lines for Grass Trimmers/Brushcutters

Hitachi high quality co-polyamide lines are made for agricultural and gardening applications and are known as the best in the market. The material is strong and tough with high abrasion resistance and can be used on thick tough vegetation with weeds and brambles. The special blend of raw material overcomes two of the most common difficulties encountered with intensive line use, namely line breakage at the eyelet of the nylon head and line fusing in the head. Thanks to the aerodynamic shape of the helicoidal lines, they have outstanding air penetration resulting in a significant noise reduction. Depending on the size of the line and the rotation of the machine, the noise level reduction may go up to about 15%. The lines have lower vibration, improving the lifetime of the trimmer machine and improving efficiency because the machine will reach its optimal speed faster.

Hitachi nylon lines are colour coded to allow easy distinction between sizes:

Green: 2.0mm

Orange: 2.4mm

Red: 2.65mm

Yellow: 3.0mm

	Size	Length	Weight (g)	Colour	Part Number	EAN

HEDGETRIMMERS

The Quick-Twist angle-adjustable handle uses a simple lock-on/lock-off button to set the handle at 0°, 45° and 90° left and right. This allows for easy vertical trimming, suitable for both left- and right-handed users.

Push the lock button to change the angle of the twist handle. This is only possible when the throttle lever is released.

Wide space designed between operator's hands and hedges

When blades are moving, the lock button can not be pushed. The operator must release the throttle lever before pushing the locking button to change the handle position.

CH22EAP2/WA

Double Sided Hedgetrimmer

- New PureFire engine meets European standards for low emissions
- Wide angle adjustable handle can be easily locked in 5 positions for ease of use
- S start: soft and smooth engine recoil starter

Displacement	21.1cc
Max Power	0.65kW (0.87hp)
Fuel Tank Capacity	300cc
Cutter: Length	500mm
Effective	444mm
Cutter Pitch	30mm
Cutter Speed	0.91m/sec
At Rated Speed	10000/min
Blade Type	Double sided
Dimensions	936 x 238 x 236mm
Dry Weight	4.3kg
EAN	4966376222537

Standard equipment:
Box wrench, hex wrench, blade cover

CH22EBP2/WC

Double Sided Hedgetrimmer

- New blade with 3 cutting edges
- New PureFire engine meets European standards for low emissions
- Wide angle adjustable handle can be easily locked in 5 positions for ease of use
- S start: soft and smooth engine recoil starter

Displacement	21.1cc
Max Power	0.65kW (0.87hp)
Fuel Tank Capacity	300cc
Cutter: Length	620mm
Effective	554mm
Cutter Pitch	35mm
Cutter Speed	1.06m/sec
At Rated Speed	10000/min
Blade Type	Double sided
Dimensions	1053 x 238 x 219mm
Dry Weight	4.7kg
EAN	4966376222728

Standard equipment:
Box wrench, hex wrench, blade cover

CH22ECP2/WC
Double Sided Hedgetrimmer

- Low vibration design - less than one third the vibration of standard model
- New blade with 3 cutting edges
- New PureFire engine meets European standards for low emissions
- Wide angle adjustable handle can be easily locked in 5 positions for ease of use
- S start: soft and smooth engine recoil starter

Displacement	21.1cc
Max Power	0.65kW (0.87hp)
Fuel Tank Capacity	300cc
Cutter: Length	620mm
Effective	554mm
Cutter Pitch	35mm
Cutter Speed	1.06m/sec
At Rated Speed	10000/min
Blade Type	Double sided
Dimensions	1053 x 250 x 197mm
Dry Weight	5.0kg
EAN	4966376222926

Standard equipment:
 Box wrench, hex wrench, blade cover

CH22ECP2/WE
Double Sided Hedgetrimmer

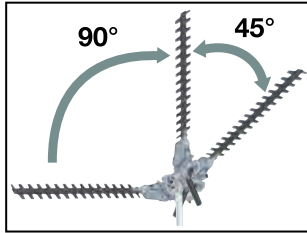

- **Low vibration design - less than one third the vibration of standard model**
- New blade with 3 cutting edges
- New PureFire engine meets European standards for low emissions
- Wide angle adjustable handle can be easily locked in 5 positions for ease of use
- S start: soft and smooth engine recoil starter

Displacement	21.1cc
Max Power	0.65kW (0.87hp)
Fuel Tank Capacity	300cc
Cutter: Length	780mm
Effective	694mm
Cutter Pitch	35mm
Cutter Speed	1.06m/sec
At Rated Speed	10000/min
Blade Type	Double sided
Dimensions	1207 x 250 x 197mm
Dry Weight	5.0kg
EAN	4966376222933

Standard equipment:
 Box wrench, hex wrench, blade cover

Pole hedgetrimmers can function as both a brushcutter and a hedgetrimmer. The head angle is easily adjustable by a lever at the gear case to suit cutting and trimming applications either on the ground or high above.

CH27EPA/LW Pole Hedgetrimmer

- For trimming medium height and high hedges
- Head angle is adjustable from 90° down to 45° up
- S start: soft and smooth engine recoil starter
- Overall length 2.3m

Displacement	26.9cc
Max Power	0.88kW (1.23hp)
Fuel Tank Capacity	520cc
Cutter: Length	550mm
Cutter Speed	0.95m/sec
At Rated Speed	7500/min
Blade Type	Double Sided
Dimensions	2300 x 240 x 250mm
Dry Weight	6.2Kg
Barcode	4934528838844

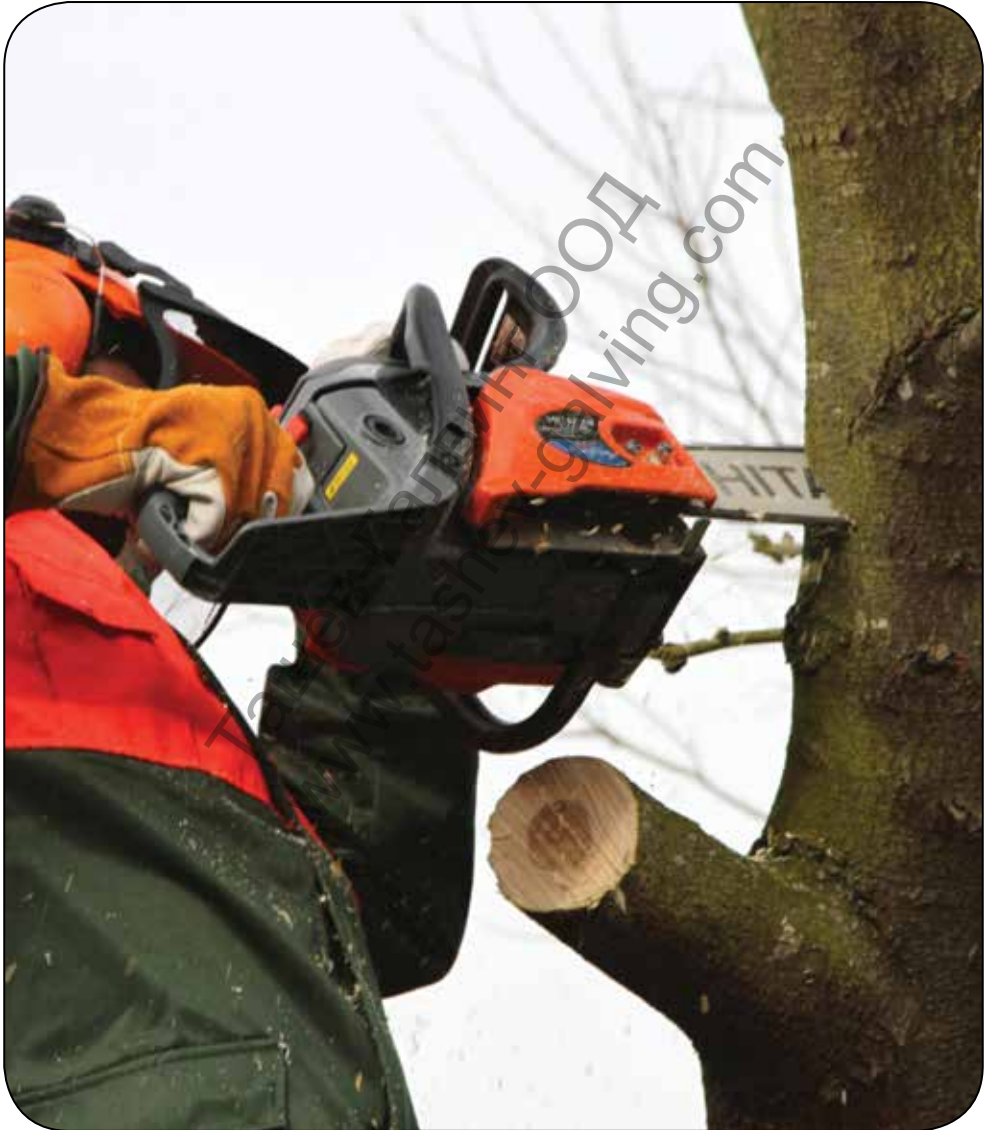

Standard equipment:
Box wrench, hex wrench, blade cover, harness

CS-EX
Extension Kit - Optional Accessory

Length: 600mm
Weight: 0.6kg

CHAINSAWS

Hitachi top handle chainsaws are lightweight and compact, designed for tree servicing and working in confined spaces. A well balanced design and single lever control give greater usability.

Side access chain tensioner:
Allows saw chain to be adjusted through the side case

Chain oil supply adjustment:
Located on the top for easy use

Thumb rest:
Easy to hold the unit stably & firmly

Screw to adjust engine speed:
Located on the top for easy use

Auto choke return system

Well balanced:
Rear eyelet for attaching rope

**PLEASE NOTE: TOP HANDLE
SAWS ARE FOR USE BY
TRAINED ARBORISTS ONLY**

PLEASE NOTE: ALL TOP HANDLE

All Hitachi saw chains are fabricated from special alloy steel. This specially engineered steel adds toughness and abrasion resistance. All Hitachi saw chain cutters are plated with hard industrial chrome. This process yields superior edge-holding qualities to other types of plating.

In the field, Hitachi saw chains stay sharp longer. Unlike the competition, every Hitachi saw chain is sharpened after assembly to cut fast out of the box. To reduce bearing wear during 'break in', all Hitachi chains are injected at the rivet bearing with a hypoid lubricant.

Hitachi chainsaw and forestry clothing provides the optimal balance between protection and comfort, while being light, comfortable and easy to maintain.

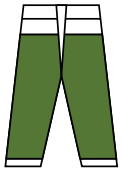

Hitachi's well-equipped testing laboratory offers the possibility to find solutions according to the specific needs of chainsaw users. Professional end users are regularly called upon to test Hitachi chainsaw and forestry clothing in practice, paying great attention to ergonomics, quality, durability and comfort.

The results of all these tests are incorporated into the clothing so that the optimal balance is achieved between protection, security and comfort.

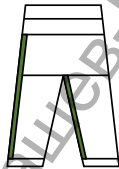

Hitachi chainsaw clothing is made of a beaver nylon, comprising 49% cotton and 51% polyester nylon so the outside of the clothing is very durable, water resistant and dirt repelling. The inside is soft and comfortable to wear.

Of course, all models meet the current European standards, because your safety is our priority. The various levels of protection are indicated on the clothing by an icon with the standard EN 381 accompanied by the class.

Size	Length	Height	Chest size	Waist size
S	46 - 48cm (18-19")	164 - 182cm (64-72")	88 - 96cm (35-38")	76 - 84cm (30-33")
M	50 - 52cm (20-21")	164 - 182cm (64-72")	96 - 104cm (38-41")	84 - 92cm (33-36")
L	54 - 56cm (21-22")	170 - 188cm (67-74")	104 - 112cm (41-44")	92 - 100cm (36-39")
XL	58 - 60cm (23-24")	170 - 188cm (67-74")	112 - 120cm (44-47")	100 - 108cm (39-43")
XXL	62 - 64cm (24-25")	176 - 194cm (70-76")	120 - 128cm (47-50")	108 - 116cm (43-47")
XXXL	66 - 68 (26-27)	176 - 194cm (70-76")	128 - 139cm (50-55")	116 - 124cm (47-49")

All Hitachi chainsaw clothing is washable up to 60 degrees but is not suitable for tumble drying.

All Hitachi chainsaw trousers are equipped with type A protection. They are suitable for professional foresters who are trained to work in forestry at ground level.

Type A offers 180° protection in front of each leg plus 5 cm on the inside of the right leg and 5cm on the outside of the left leg. The protection begins no more than 5cm from the bottom of the leg and stops at least 20cm above the crotch.

Hitachi forestry jackets are available as a standard model for general use or chainsaw protective model with Type A protection

2 Hitachi YEAR PETROL TOOL WARRANTY*

Terms & conditions apply. Online registration required

Now more than ever, you need tools you can rely on.

Hitachi Power Tools offer an extended warranty on all outdoor power equipment when registered within 4 weeks of purchase.

Simply visit www.hitachi-powertools.co.uk/opewarranty.html and complete the registration form supplied.

What does the extended warranty cover?

We undertake to replace or repair any part found to be defective in material or workmanship, within 24 months (15 months for Hire Fleets) of delivery to the original purchaser.

What is not covered?

Defects arising from neglect, misuse or accident, except as provided by statute. Accessories and other consumable items are also excluded from this Guarantee.

How do I get my tool repaired?

Contact your nearest Hitachi authorised service agent. You can find this on our website or by calling us on 01908 660663. You will need to provide your proof of purchase and warranty registration number to the service agent.

I have purchased a cordless outdoor power tool. Is this covered under the warranty?

Li-Ion cordless tools are covered by a separate extended warranty. Please see www.hitachi-powertools.co.uk for details.
