Auto load function	Yes
Automatic power off	Yes
Spindle thread	M10 x 1.25 left hand
Weight including battery	5.2kg
Dimensions (L x W x H)	1840 x 340 x 193mm
Battery	HIKOKI Multi Volt batteries

Features

The CG36DC is equipped with auto mode load function. As the workload increases, the number of revolutions automatically increases, allowing you to work more efficiently.

Improved operability by locating the switch panel near the handle, so you can change the functions easily and safely. Also the motor is positioned at the rear of the trimmer to provide the best combination of power, balance, and maneuverability.

Safety lock at the handle for working safely

Compatible with the HIKOKI MultiVolt battery

Included Accessories

Shoulder strap, safety glasses, 17 x 29mm box spanner, 4mm hex key

Applications

Trimming, slashing and mowing of bushes, grass and weeds
