

Concrete placement equipment

Husqvarna BV 20 G

BV 20 G is a petrol-powered, vibrating walk-behind concrete power screed designed to provide a high-quality slab. The fuel-efficient Honda engine delivers reliable operation, and the non-corrosive aluminium alloy finish ensures easy maintenance. For perfect results, the vibrations can be adjusted with the engine speed. It can be used directly on thin slabs up to 150mm without vibrating beforehand

● Motor/engine **4-stroke Honda**

model **GX 25**

● Fuel tank **0.58 l**

volume

● Energy supply **Electric**

■ Working width **200 cm**

FEATURES

Want to take a closer look? Learn more about the product in depth by exploring its features and benefits.

Quality that lasts

There's little need for maintenance due to lightweight, non-corrosive aluminium profiles.

Long reach

The standard inter-connectable handle makes it possible to work from outside the slab with a long reach. The optional extra handle extends your reach even farther.

Adjust for perfect results

The vibration force can be adjusted with motor speed to produce perfect results.

Professional results, every time

The rigid bottom plate features a slightly V-shaped profile that drives excess concrete backwards and refills any footprints you might make.
