

Вибромастар плоскостен бензинов

Electric vibrating screed curved profile ideal for concrete smoothing.

HONDA engine.

Antivibration handlebar

Resistance made of aluminum

Mobility lightweight and transport lever

Security cushions reduce vibration spread to operator

Power efficient petrol engines

Autonomy powered by petrol engine, does not require electric power supply

Comfort total control from handlebar

Performance profile designed to make easy drag-and-thrust

Quality abrasion resistant materials

Petrol engine CG HONDA – GX 25

4T – 7.000 v.p.m. – 1,1 Hp

Profile lengths:: 1,5, 2, 2,5 y 3 m

Weight: de 18 – 24 kg
