

Demolition tools

DCR 100

DCR 100 is our lightest crusher designed for our DXR 140 demolition robot to ensure high working efficiency. Despite its low weight it is possible to demolish a 400 mm thick wall. The crusher ensures great performance in a variety of applications such as demolition of concrete and brick constructions, staircases, roofs as well as sensitive locations inside buildings.

SPECIFICATIONS

Hydraulics

Hydraulic oil flow **55 l/min**

Specifications

Cutting force **94 t**
Crushing force **34 t**
Rotation angle **360 °**
Incoming pressure, max **200 bar**
Operating pressure Max **200 bar**

Dimensions

Jaw depth **185 mm**
Jaw opening, min **25 mm**
Jaw opening, max **425 mm**
Rebar size, max **28 mm**
Product size length **1000 mm**
Product size width **730 mm**
Product size height **330 mm**
Weight **192 kg**
