## Функции

### Convenient handling

For fatigue-free, safe and pleasant work, the Hedge Trimmer lies well in the hand thanks to the ergonomically-shaped handle.

### Optimum cutting results

Blades working in opposite directions permit fast and easy cutting with little use of force, without irritating blockages and interruptions.

### High level of safety

The impact protection at the end of the blade protects it when cutting close to the ground, or along house and garden walls. The cable relief prevents the inadvertent disconnection of the cable during cutting.
