

Нож Milwaukee за прободен трион - зеге за алуминий и пластмаса 75 мм, Т-захват, праволинейно, T 127 D

- Most traditional blades are also capable of cutting aluminium, however these two blades benefit from a larger tooth pitch and wider gullets offering better material removal which is an advantage when cutting aluminium.
- When cutting curves or irregular shapes in aluminium we recommend the use of blade 4932346081.
