

Сюрме Estebro® за входна врата квадратно с пружина 200 мм, полирано

Squared barrel bolt with spring and interchangeable puller

Family: Bolts

Material: Bolt of F-211 steel

Finish: Zinc-plated

Description:

Component used to prevent the involuntary opening of the door. The bolt, pushed by a spring, is displaced by the activation of the puller which operates as an anchorage. It has a hole for its fixing, or it can also be fixed by welding.

Apart from the folded puller, it is supplied with a M.6 screw that can be exchanged.
