

Панта Estebro® за заваряване капковидна с пружина 22x250 мм, 276

Family: Drop profile hinge

Material: 11SMn30 steel

Description: Mechanized component which is installed on a metallic swing door to allow its opening and closing. Its drop profile shape facilitates the welding. It has a spring around the axle which allows a return movement. It also has a screw which enables the regulation of the closing strength. The brass washer installed between both bodies softens the maneuver turn avoiding the friction between
