Family: Swing gates

Material: Stainless steel AISI 303, Stainless steel AISI 304L

Finish: -----

Maximum weight supported*: See table

Description: It is composed of two parts: Upper and Lower. The upper part is installed by welding the square to the upper part of the door and the plate to the frame, otherwise by fitting it into the concrete of the wall. The lower part is welded to the piece installed on the floor and to the lower part of the door, allowing its opening and closing.

*In perfect conditions of installation, usage and maintenance.
