# Many Brands. Many Tools. ONE BATTERY SYSTEM.

**One battery for all tasks:  
AMPShare – powered by Bosch**

AMPShare is the multi-brand battery system for trade and industry professionals. With just one shared battery system, you have the flexibility to switch between pro tools and brands – without thinking twice. With over 80 million batteries sold and a fast-growing alliance, AMPShare is the 18V battery system you can build on.

This versatile battery is compatible with over 250 devices, offering professionals and DIY enthusiasts limitless possibilities.

With a system designed for efficiency and flexibility, the AMPShare battery seamlessly integrates into a globally established network. Whether for professionals in continuous use or DIY enthusiasts tackling various projects – you benefit from a sustainable solution that adapts to your needs. Perfect for today and ready for the challenges of tomorrow.

Easy switch: The AMPShare battery of the MESTO® backpack sprayer is effortlessly easy to use. This way, your device is immediately ready for action.

Precise spray intensity: On the MESTO® backpack sprayers, you can adjust the intensity as needed – for full control and efficient work.

**e.AQUA 20**  
TYPE 3628W

**Backpack Sprayer e.RS185**  
TYPE 3626

Including AMPShare 18 V with 4 Ah, 0.6 Kg, and AMPShare EU Charging Station (Variant 3628EU) or AMPShare UK Charging Station (Variant 3628UK) available.

Mobile Water Supply Anywhere!  
The MESTO® e.AQUA 20 with battery-powered pump ensures a reliable water supply wherever no connection is available. Perfect for dust suppression in core drilling and cutting – just set it up, connect, and get to work.

Water Stop Coupling – Compatible with your own spray nozzle, ideal for mobile plant watering.  
Battery-Powered Pump – Water at the push of a button, no effort required!

- Compatible with all Bosch AMPShare 18 V batteries
- LED charge indicator on the battery
- Operating time 60-140 minutes depending on flow rate
- Filter against contamination
- Hose holder
- 20 L filling capacity

**Variant Type 3628TW with transportation cart**

Including AMPShare 18 V with 4 Ah, 0.6 Kg, and AMPShare EU Charging Station (Variant 3626EU) or AMPShare UK Charging Station (Variant 3626UK) available.

The new battery backpack sprayer is compatible with all Bosch 18 V batteries and is perfect for the targeted application of plant protection, fertilizers, and pest control agents.

With an ergonomic back panel, professional carrying system, and precise brass spray pipe. Easy cleaning and maintenance ensure long-lasting use.

- Compatible with all Bosch AMPShare 18 V batteries
- Charge indicator on the battery
- Operating time 60-140 minutes depending on flow
- Ergonomic back panel
- Professional carrying system
- Filter against contamination
- Spare parts compartment
- Spray pipe holder
- 18 L filling capacity

## THE HANDLE FOR MORE POWER. UPGRADE TO ELECTRIC DRIVE IN NO TIME.

With the new MESTO® e.flow battery pumps, you can turn any manual sprayer into a powerful battery-operated device in no time, equipped with a USB-C charging port. This saves you money, conserves resources, and allows you to do your work with more comfort and power.

### e.PUMP TYPE 6280AN

The MESTO® e.PUMP delivers up to 1.4 bar pressure, transforming all 3230 and 3232 series products into powerful battery-operated sprayers. Its lightweight and compact design offers an ideal solution for daily tasks around the house and garden. The battery charge level remains visible at all times.

- Including USB-C cable
- Operating time: 60 minutes
- Charging time: 150 minutes
- LED with 2 colors
- For all MESTO® plastic devices of the 3230 and 3232 series

### e.PUMP PROFI

e.PUMP PROFI F2.2  
TYPE 6280AP

e.PUMP PROFI E2.2 On/Off auto-  
TYPE 6280AE matically

The e.PUMP PROFI maintains a steady pressure of 1.8 to 2.2 bar without any need for manual pumping, ensuring continuous and effortless operation. With an operating time of 90 minutes, it efficiently covers large areas, making spraying effortless and convenient. Choose the e.PUMP PROFI F2.2 for plant protection, slightly acidic solutions, or construction chemicals, and e.PUMP PROFI E2.2 for alkaline solutions. Both models come with an automatic on-and-off function.

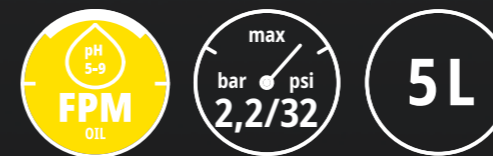

- Including USB-C cable
- Operating time: 90 minutes
- Charging time: 180 minutes
- LED with 2 colors
- For all MESTO® 3 - 10 L plastic devices

## BETTER RESULTS IN LESS TIME.

### PRESSURE SPRAYERS WITH INTEGRATED BATTERY POWER.

The battery pump ensures permanently optimal pressure. The spray medium is applied evenly, the spray pattern remains clean, and the application quantity is constant. In the e.PUMP PROFI model, the battery automatically switches off when the target pressure is reached. This conserves battery life and extends spraying time, ensuring maximum efficiency.

#### e.FIX PLUS TYPE 3227FP

For the use of sprayable construction chemicals. The powerful battery pump with up to 2.2 bar operating pressure maintains constant pressure – ensuring optimal spray quality and perfect work results. The automatic on and off function of the pump conserves battery life.

- Hose connection with filter
- Oil-resistant hose
- Powerful battery pump
- Operating time: 90 minutes
- Charging time: 180 minutes

#### e.VERIS TYPE 3227

Highly convenient and ideal for plant protection, weed control, flower care, and liquid fertilization: the powerful e.VERIS with up to 2.2 bar operating pressure allows for comfortable work in the green, without manual pumping. Naturally, it is universally applicable for both very low crops and higher plants.

- Foot with foot step
- Telescoping spray pipe
- Powerful battery pump
- Operating time: 90 minutes
- Charging time: 180 minutes

**e.PRIMER**

TYPE 3227P

Powerful battery pressure sprayer for use in crafts. Perfect for spraying primer, adhesive primer, wallpaper remover, and other sprayable construction chemicals. The advanced battery pump maintains pressure without manual pumping at a comfortable 2.2 bar – for effortless and perfect application of many construction chemicals. Good resistance and automatic on and off function.

- Foot with foot step
- Powerful battery pump
- Operating time: 90 minutes
- Charging time: 180 minutes

**e.PRIMER H2O**

TYPE 3227W

Perfect for mobile water supply at construction sites: The e.PRIMER H2O is the ideal companion for core drilling or cutting tasks. The powerful battery pump with up to 2.2 bar operating pressure allows for convenient application of the liquid without manual pumping. The automatic on and off function of the pump ensures a constant pressure.

- Hose connection with filter
- Hose coupling with water stop
- Powerful battery pump
- Operating time: 90 minutes
- Charging time: 180 minutes

**e.CLEAN FIX 5**

TYPE 3227FM

The optimal pressure sprayer for the cleaning industry, disinfection, corrosion protection, and impregnation: Powerful battery pump with up to 2.2 bar operating pressure, automatic on and off function of the pump for constant pressure and optimal spraying results

- Foot with foot step
- Powerful battery pump
- Operating time: 90 minutes
- Charging time: 180 minutes

**e.FLORI & e.FLORI COMPACT**

e.FLORI  
TYPE 3222R

e.FLORI  
COMPACT  
TYPE 3220R

Handy, lightweight, and with a battery: Enjoy gardening with the new e.FLORI and e.FLORI COMPACT. The ultra-light battery pump with up to 1.5 bar operating pressure allows for convenient application of plant protection products, fertilizers, water, and more.

- Extra large filling opening with integrated funnel
- Foot ring
- Handy battery pump
- Operating time: 60 minutes
- Charging time: 150 minutes

## CREATES ORDER WITH SYSTEM. PRACTICAL DETAILS THAT CONVINC.

Stay organized and ready to go: The integrated storage compartment of the MESTO® e.flow 1.5L pressure sprayer keeps your USB-C charging cable clean, dry, and securely stored—eliminating cable tangling and long searches. The built-in display indicator provides real-time battery status, ensuring you always stay informed about your remaining power reserves.

### e.FOAMER

### e.CLEANER

e.FOAMER F2  
TYPE 3122FO

e.FOAMER E2  
TYPE 3122FE

e.CLEANER F1.5  
TYPE 3122PP

e.CLEANER E1.5  
TYPE 3122BC

With digital  
battery display

The e.FOAMER is available in two versions and offers excellent foam quality with battery support. The e.FOAMER F2 is ideal for slightly acidic cleaning foams, while the e.FOAMER E2 is perfect for applying alkaline cleaning foams. Both devices are splash-proof (IP54), equipped with three different foam inserts, and rechargeable via USB-C.

- USB-C charging cable
- Spare parts compartment
- 3 foam inserts
- Two spray modes: Manual spraying and continuous spraying
- Operating time: 50 min
- Charging time: 180 minutes

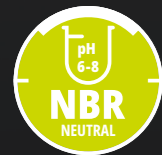

Ideal for cleaning: Powerful battery pressure sprayer with 110 minutes run time and digital battery display. Additionally, the device is splash-proof (IP54). Available in two variants: F1.5 for acidic cleaning solutions and E1.5 for alkaline cleaning agents.

- USB-C charging cable
- Digital battery display in percent
- Spare parts compartment
- Operating time: 110 min
- Charging time: 210 min

**e.FLOWER 1.5**

TYPE 3122R

For DIY users in the green sector: With a pressure of 2.2 bar and the 360° spray function, the battery-operated pressure sprayer is highly flexible and perfect for plant care, weed control, and liquid fertilization. With a runtime of 110 minutes and an IP54-rated splash-proof design, it ensures durability and reliable performance in various conditions.

- USB-C charging cable
- Digital battery display in percent
- 360° spray function
- Spare parts compartment
- Operating time: 110 min
- Charging time: 210 min

**e.FLOWER 1**

TYPE 3121R

Gardening becomes effortless and enjoyable with this sprayer: The battery-operated 1-liter sprayer with a runtime of 110 minutes makes plant care a breeze. The 360° spray function and adjustable nozzle enable precise atomization, while the two spray modes – manual spraying and continuous spraying – provide the right solution for every task.

- USB-C charging cable
- 360° spray function
- Two spray modes: Manual spraying and continuous spraying
- Operating time: 110 min
- Charging time: 210 min

## UP, DOWN, EVERYWHERE: SPRAYING PERFECTION.

THE MESTO® E.FLOW  
PRESSURE SPRAYERS  
CONVINCE IN ANY POSITION.

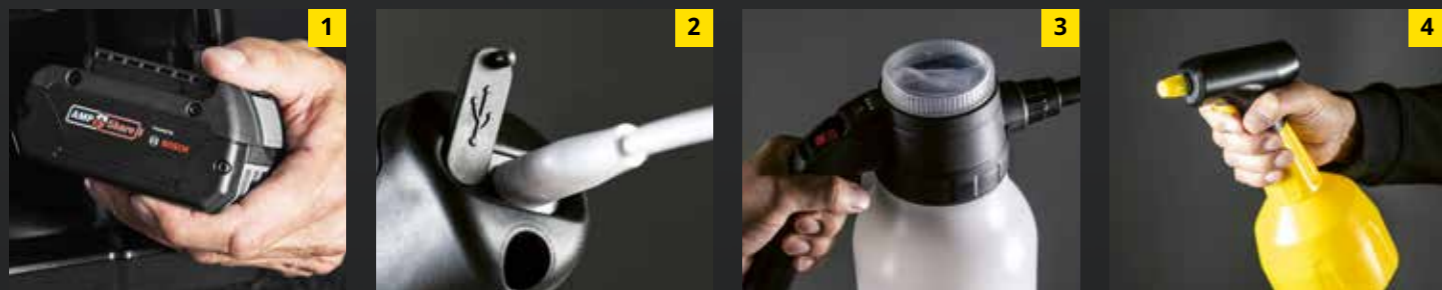

MESTO® e.flow pressure sprayers work effortlessly in any position, allowing you to reach even the most hard-to-access areas with ease. The continuous spray mode eliminates the need to press a button, reducing hand fatigue for a more comfortable spraying experience.

# A RANGE, LIMITLESS POSSIBILITIES.

## ENDLESS POSSIBILITIES FOR PROFESSIONALS AND DIY USERS

The MESTO® e.flow range provides versatile solutions for every application—whether for plant care in the garden, professional landscaping, building maintenance, automotive detailing, or construction projects. Designed with powerful backpack sprayers and ergonomic pressure sprayers, this growing lineup ensures optimal performance and efficiency in every task. As the range expands, even more innovative solutions become available to meet your spraying needs.

- 1 18 Volt Professional Power through AMPShare by Bosch
- 2 USB-C interface
- 3 Continuous mode through lock button
- 4 Ergonomic handle for relaxed working
