FEATURES

Want to take a closer look? Learn more about the product in depth by exploring its features and benefits.

Diagrip™ - for superior performance

The revolutionary Diagrip™ technology ensures an optimal 3D diamond distribution. The result is superior cutting capacity, longer life and a smooth, rapid cut throughout the life of the blade.

Efficient cooling

The notch design of the segments provides efficient cooling of the core bit and evacuates the abrasive slurry, which increases the life and speed.

Wide application window

Designed to cover a wide window of applications for problem-free drilling with most drill motors and materials.
