MULTI RUNNER

Pro

Norton Clipper Multi Runner offers a reliable, precise and fast cut across a wide variety of building materials, Multi Runner is a vacuum-brazed diamond blade for dry-cutting on angle-grinders and handheld cut-off saws.

The manufacturing process allows permanent contact of the diamond grits with the material for a smoother, faster and more versatile cut, with much longer life and constant cutting depth, in comparison to conventional abrasive wheels.

MATERIALS

- General purpose building materials
- Concrete and reinforced concrete
- Paving and slabs
- Stones
- Roof shingles
- Plastics, PVC
- Clay
- Fibreglass composites, GFK
- Rubber, tyres
- Wood
- Ductile cast iron and non-ferrous metals

APPLICATIONS

- Diamond Blade for angle-grinders and handheld cut-off petrol saws
- Especially designed for cutting unusual materials, with smooth and low vibrations. Also suitable for general purpose building materials
