Long Awaited Cordless Model

This belt sander can be used easily without the cord and creates a smoother and cleaner finish.

Compact and Easy to Use

The compact design with an overall width 20 mm shorter than its corded predecessor improves the left-and-right weight distribution, resulting in better maneuverability. The SB 3608DA is also just as easy to sand edges with.

Approx. **20mm Shorter**

The variable speed dial has five speed settings and Auto Mode, which can produce 2.0 up to 7.5m/s. The Auto Mode changes the speed depending on the load, lowering vibration and noise during no-load operation.
