

Свредла с твърдосплавни пластини и SDS-plus опашка

Тези надеждени свредла с SDS-plus опашка са евтина алтернатива на 4 plus серията.

Идеалени за неинтензивно натоварване.

Подходящи са за използване в бетон, зидария и естествен камък.

Диаметър	Дължина обща	Дължина работна	Артикулен номер
