

Compound mitre saw **SYMMETRIC**

SYM 70 E

Compound mitre saw.

- Patented symmetrical stop system
- Easy angle transfer using a bevel, cutting along the bisector without making calculations
- Stops easy to clamp, no tools required
- MMC electronics adapt to the working material
- Slim, central cross-cut unit for left and right-handed operation

Main applications

- Cutting skirting boards along the bisector without making calculations
- Cutting glass trim, cornices and end strips accurately without calculating measurements
- Cutting blunt and pointed corners easily

Technical data

Power consumption	1150 W
Idle engine speed	2700-5200 min ⁻¹
Saw blade diameter	216 mm
Interior angle	0-68 °
Exterior angle	0-60 °
Power supply	230 V
Mains frequency	50 Hz
Max. strip height	70 mm
Max. strip width	80 mm
Connection \emptyset d/e	27/36 mm
Weight	9,5 kg
