

Фрезер СМТ за дърво профилен комплект ф 8 мм, 2 бр., 8/900

Make tongue and groove joints without the complicated process of taking apart and reassembling bits. These sets give you one bit to groove the slot and a separate bit to mill the tongue. Alternatively you can use your imagination and put them to work individually on other projects. They make tongue and groove cuts in wood up to 19mm (3/4") thick.

Tungsten carbide tipped

Three cutting edges

Right-hand rotation

Anti-kickback design

Tool with bearing

Not for hand held use for
router table only
