

Hammer pulling ledge

Ташев-Галвинг ООД
www.tashev-galving.com

3-in-1 function:

- for joint-free attachment of laminate and parquet without hammer, tapping block and pulling ledge
- for joining the panels adjacent to the wall to the area already laid
- can be used in push or pull direction
- replaces hammer, tapping block and pulling ledge
- reduces the error rate to zero: rules out injuries and damage caused by the hammer
- combines force and control in one safe and ergonomic product
- for planks with thicknesses of 7 mm and above
