Wire saws

Husqvarna CS 2512

CS 2512, in combination with the hydraulic unit PP 455 E, is a powerful and easy to use wire saw. It is compact and mobile for smaller jobs but can also handle very large deep sawing jobs. It can be used for a wide range of applications, both on the ground or mounted on walls. Use it for sawing in steel, concrete and other building materials.

- Wire speed gear 1, max **20 m/s**
- Wire speed gear 2, max **25 m/s**
- Net wire storage capacity **16 m**
