

BLOCK AND STONE BENCH SAW EUROKOMAX MS700 (WITH DIAMOND BLADE)

- Motor: Electric
- Motor power (V/Hz): 400V/50Hz
- Motor power (kW): 5,5 kW
- Max. diamond blade: 700 mm
- Max. cutting depth: 295 mm
- Max. cutting length: 870 mm
- Water supply: Water pump
- Weight (kg): 200 kg

SKU: 911700 Category: Block and Stone Saw Tags: bench, blade, block, blocks, brick, concrete, cut, cuts, cutter, cutting, depth, diameter, diamond, easy, electric, eurokomax, eurokomax.ms700, height, legs, pass, phase, porotherm, protected, safe, saw, single, stone, table, tablesaw, three, transport, water, ytong

Description

- **Heavy duty capacity** saw with **top performance**, up to 305mm max. cutting depth
- Cuts any kind of construction material, specially prefabricated concrete blocks, **Porotherm blocks**, Ytong blocks, large bricks, etc.
- With a cutting depth of 305mm MS700 easily cuts 25cm height blocks in a **single pass**.
- MS700 Block Saw is a very tough and robust saw, so **vibration is avoided** during the cutting and assures an improved performance of the diamond blade.
- **Easy cutting depth adjustment** with blocking system.
- The sliding cart is featured with cylindrical shaped wheels, which slide on through cylindrical shaped guides, assuring then **absolute stability**.
- Table saw **safety blade guard** is made of steel, it is a necessary part of the tablesaw assembly.
- Protected switch
- Gradual ruler
- Supply of **flushing water on both sides** of saw blade.
- **Easy carriage** thanks to the big wheels (with breaks)
- Electric Motor Power 5,5kW
- Power Supply 400V – three phase
- Ø 700mm Diamond Blade
- Blade bore diameter (mm) 25,4mm – 1"
- Cutting depth max. 305mm – for a Ø400mm blade capacity
- Universal diamond blade included – Ø700mm
