

A 1000

[Overview](#) [Features](#) [Specifications](#) [Accessories](#) [Where To Buy](#)

A 1000 is one of the most advanced portable air cleaners available on the market. It is tested and certified for use as both an air cleaner and a negative air machine. Thanks to a reliable filter system and a design that is perfectly matched to operation with HEPA class H13 filters, that are tested and certified at an efficiency rate of 99.99% at 0.3 microns, the air cleaner puts out superior air quality – be it when dealing with concrete dust, fine sanding dust or gypsum dust. It has two warning lights to indicate when the filters are clogged or leaking. A 1000 is a quiet-operating air scrubber with a sturdy, compact cabinet. Airflow can be set at two different speeds. The airflow is directed upwards to avoid disturbing dust on surfaces.

- Phases **1~**
- Air Flow, m³/h **1000 m³/h**
- Rated input power **0.3 kW**
- Weight **20 kg**
