

Смесител Wagner за строителни разтвори електрически 1400 W, 60 л, 280 об./мин, PlastMix 15

01 - PlastMax - Mixing pump for the economical application of mineral and paste-like materials

Complete solution: Mixing, pumping and spraying with a single unit

User-friendly and powerful: clearly arranged control panel including speed inverter and material flow rate (up to 20 l/min, depending on pump casing) and much more

Easy transport and quick cleaning: the tiltable mixing chamber and the quick stator changing allow an easy cleaning. For transport the unit can be disassembled into four modules

Easy to maintain and durable: self-priming water pump with stainless steel case and brass impeller

Integrated compressor (250 l/min suction power): dirt resistant and oil-free compressed air for a low maintenance

01 - Scope of delivery

- Base unit; PlastMax on trolley
- Mortar hose DN25, 10 m
- In-wall lance, pneumatic
- Accessory box, complete, for PlastMax
- Stator
- Rotor

Art. No. Spraypack: 2361 587

02/03 - Flow mixer PlastMix 15

User-friendly operation: Clear controls easily dismantled for fast cleaning and maintenance.

High performance: Robust drive motor with direct transmission. The high torque ensures optimal start-up even with filled containers.

Always at the perfect height: adjustable frame (95 cm, 109.65 cm or 116.5 cm)

Available in four variants: With steel- (Abb. 02) or PUR mixing tube (perfect for an easy cleaning - Abb. 03); available with or without booster pump

Technical data	PlastMix 15
Motor output	1,4 kW
Voltage	230 V / 50 Hz
Min. water pressure	0,2 MPa
Mixing rate	15 l/min
Max. grain size	5 mm
Hopper content	60 l
Weight	78 kg

Art. No. steel mixing tube: 2348 669

Art. No. steel mixing tube + booster pump: 2351 507

Art. No. PUR mixing tube: 2359 240

Art. No. PUR mixing tube + booster pump: 2360 039
